Equivalent Rollback Millage

>Taxable property is revalued during reassessment through a reappraisal process. Because of the increase in overall tax value and corresponding increase in the value of a tax mill, SC law requires operating millage to be adjusted down (rolled back) to avoid an automatic tax increase from reassessment.

>Using the percentage increase in the value of a tax mill that occurred because of reassessment, each type of prior year tax millage has been converted to an equivalent rollback millage amount to reflect actual 2025 tax millage rate increases or decreases.

Types of Property Tax Millage

Operating Millage

Tax Millage levied by tax authorities to fund basic operations

Reserve / Lease Millage

Reserve millage - additional tax millage levied by tax authorities to maintain a reserve account

Lease millage - additional tax millage levied by tax authorities to pay for lease purchase agreements

Debt Millage

Debt tax millage changes when tax authorities vote to increase the amount of their debt or debt is paid off
