By signing this form, the registered professional indicated below certifies that they, or a designee, were present during the required installation associated with the LID listed above, and that, to the best of their knowledge, information, and belief, these measurements are in general accordance with the Approved Plans/Details.

Please note that the elements listed above must be reflected on the project's As-built survey. The Project's Construction Certification Package, which must be submitted with the As-built Survey, must include digital copies of all LID Construction Certification Forms (one per type of LID) and digital copies of the photographs required on these forms.
