

AN ORDINANCE

TO ESTABLISH REGULATIONS FOR WASTE TIRE HAULERS IN GREENVILLE COUNTY.

BE IT ORDAINED by the County Council of Greenville County, South Carolina:

Section 1. Findings. Greenville County Council finds that illegally dumped waste tires create significant health and safety risks for Greenville County. Stockpiles of waste tires create an ideal breeding ground for mosquitoes and rodents to thrive, creating a health hazard for the community. Waste tires can result in large scale tire fires, which release toxic pollutants in the air and are difficult to extinguish. Rubber from waste tires can decompose into oil and contaminate ground water. Illegally dumped waste tires are also an eyesore that impairs the natural beauty of the County. Greenville County Council hereby finds that there is a need to create a program to strictly regulate the disposal of these waste tires to protect the public health, safety, and welfare of the citizens of Greenville County.

Section 2. Definitions. For the purposes of this ordinance, the terms below shall have the following meanings:

"Transport" or "Transportation" means the movement of waste tires by any means, including, but not limited to, by vehicle, trailer, cart, or on foot.

"Waste Tire" means any tire that is no longer suitable for its intended purpose because of wear, damage, or defect or that is deemed unfit for and is not being used for any other purpose.

"Waste Tire Hauler" means any person engaged in the transportation of 15 or more waste tires at one time that have been received in Greenville County or that will be stored, processed, or disposed of in Greenville County.
