March 1, 1962

Mr. F. Dean Rainey
Attorney at Law
118 Broadus Avenue
Greenville, South Carolina

Dear Dean:

I hand you herewith the recorded instruments of The Kendall Company and Belton Light and Power Company releasing and conveying to the City and Commissioners of Greenville the right to the use of the water of the North Saluda River at the point of the new dam. The fee for recording these instruments was \$1.00 each, which you may have the Commission remit to us at its convenience. We paid the recording office.

We took the position with the Clerk of Court that no documentary stamps need be affixed on these instruments because they did not effect a sale of real estate. He concurred with this view.

We have a letter from the Assistant General Counsel of The Kendall Company stating that the approval of this settlement by the Board of Directors of that company would be obtained in a resolution to be adopted at the next Directors' meeting, which is set for the last week in March and that he would furnish a certified copy of the resolution. This we will forward to you upon its receipt.

Yours very truly,
WATKINS, VANDIVER, FREEMAN & KIRVEN
