The temporary right of way granted hereunder shall be located on the East of the permanent right of way for a distance of 250 feet, more or less from Old Spartanburg Road to existing fence line and then on the West side for a distance of 473 feet more or less from the fence line to the South boundary of the property of the Grantor - including the transition point where the wide side of the right of way reverses. All as is shown on drawing dated June, 1963, attached hereto and made a part hereof.

Grantor shall have the right to retain existing fence across the right of way granted herein.

and to construct and maintain in, upon and through said premises, in a proper manner, a pipe line or lines, air vents, blow off connections, manholes and other necessary apparatus incident thereto, using the necessary appliances and machinery for such work for the purpose of conveying water through the premises above described, together with the right at all times to enter upon said premises for the purpose of inspecting said line or lines and making necessary repairs and alterations thereon, together with the right to cut away and keep clear of said pipe line or lines all trees and other obstructions that may in any way endanger or interfere with the proper operation of or access to the same.

It is understood and agreed that the right of way to be used under this contract during construction is to be seventy-five feet in width throughout the entire length which is approximately 723 feet, and the damage, which THE CITY OF GREENVILLE, SOUTH CAROLINA, is to be liable for during construction, is to be confined to this strip and nothing beyond. The location of the pipe line or lines, when laid, will determine the definite location of the right of way. The center of the pipe line or lines shall be accepted as lying twenty-five feet from the West boundary line of this right of way. The remaining fifty feet of said right of way during construction shall lie East of the center of said pipe line or lines and the entire right of way may be used for the purpose of installing the pipe line or lines. The location of said pipe line or lines is to be approximately along the line as now located and staked out by the engineers, subject to a variation of not exceeding fifty feet either way. The permanent right of way, after the pipe line or lines are installed, shall be fifty feet in width measuring twenty-five feet from the center on each side of said pipe line as laid, and no obstruction shall hereafter be placed on said fifty foot right of way. (See above re: temporary right of way)

If in laying the pipe line or lines, it is necessary to cut any timber from the right of way, such timber shall be placed at the edge of the right of way on the land of the undersigned grantor and shall be the property of the undersigned grantor.

It is further understood that the owner is to have the right to cultivate and use this right of way strip of land provided such use thereof shall not interfere with the proper maintenance and free access to the pipe line or lines to be installed under this agreement. No buildings or other structures shall be placed on said right of way nearer than 25 feet from the center of said pipe line or lines.

The payment above specified covers compensation for the easement on right of way, and also covers all claims for damages, including crops growing on the right of way during the year 1963 and 1964, along said right of way resulting from construction of the pipe line or lines to be laid.

It is further agreed that in case of future damages to property or crop, due from an accident on the pipe line that THE CITY OF GREENVILLE shall pay all damages.

The undersigned agrees to release and give to THE CITY OF GREENVILLE, SOUTH CAROLINA, actual physical possession of the premises above described not later than the 1 day of July, 1963.
