

2.

consideration of the mutual agreements, covenants and conditions herein contained, IT IS AGREED:

## I

The City shall permit a sewer line, constructed at the sole expense of Phillips, to be connected to the sanitary sewer system of the City at a manhole installed by the City at the intersection of Ridge Road and Duvall Drive. Phillips shall pay to the City the sum of Five Thousand Five Hundred and 00/100 (\$5,500.00) Dollars upon the execution of this agreement as compensation for this connection and in reimbursement of costs incurred for changes or additions in lines and any other work or expense required by the City on account of such connection.

## II

The City shall provide a sewer service line or lines from the connection at said manhole to a trunk sewer line of the Greater Greenville Sewer District, said City sewer line to be sufficient to provide adequate sewage flow from Phillips up to, but not exceeding, three hundred (300) gallons per minute between June 1, 1967 and June 1, 1970, and thereafter flow from Phillips up to, but not exceeding, five hundred (500) gallons per minute. It is recognized that, in order to provide for a sewage flow of five hundred (500) gpm from Phillips, the City must redesign and construct, between the said manhole and the Greater Greenville Sewer District truck line, a larger line than heretofore planned
