

May 28, 1978

Mr. Bright,

I agree to grant to Duke Power Company right of way for installation and maintenance of underground power lines along the boundary line of my property that separates my lot from lot number 6, provided that the easement follows that path which we discussed and that the area required for right of way does not extend more than 20 ft. from the aforementioned property line across my property. Also, I reserve the right to use this right of way for my personal use as a road.

yours truly,

David S. Aubrey
