

STATE OF SOUTH CAROLINA

COUNTY OF GREENVILLE

FILE 23.826

A G R E E M E N T

PROJECT APD-035(83)

ROUTE 25/276

This agreement is entered into between the South Carolina Department of Highways and Public Transportation, hereinafter referred to as SCDHPT, and Robert M. Turner, Deborah W. Steadman, Robert B. Roe, Jr., Helen Lucinda Roe Turner and Rebekah Hull Roe Brown, hereinafter referred to as owners, for the relocation of the controlled access line between survey stations 312+60 and 314+60 on the left as shown on plan sheet 16C of plans for the above project. This relocation is for the purpose of permitting access from Road S-281 to property of the owners as shown on said plans.

It is agreed and understood that SCDHPT will move the control of access fence to allow encroachment on its right of way and construct a driveway so that the owners will have access to Road S-281. Owners herein agree to the construction of said driveway and understand that said construction encroaches on the property of owners as shown on plan sheet cited above. SCDHPT will remove the driveway connection that presently exists through the control of access line at approximate station 315+60.

It is further agreed and understood that SCDHPT does not relinquish any property between the fence and the right of way line and that the use of the right of way for the driveway entrance to be constructed as cited above does not constitute a relinquishment of their interest in, or the right to control access to, this property for anything other than for access purposes. Should SCDHPT need the right of way in the future the owners would then be responsible for providing an alternate means of access.

This agreement entered into this 28th day of September, 1981.
