RE: SHADOW OAK COMMONS  
PELHAM ROAD

Dear Mr. Carter:

In reference to your letter of September 3, 1980 concerning the above, the developers of Shadow Oak Commons plan to handle the solid waste disposal as follows:

1. The property owners association will employ a full-time employee whose function, among other things, will be to collect waste from the individual units to be constructed.
2. The above pick up will take place twice a week.
3. The pick up will be handled by truck owned or leased by the association.
4. The individual waste cans will be screened and at the rear of each unit.

I trust this is the information you desire. If you should have additional questions, please call.

Respectfully submitted,

*Paul C. Aughtry, III*
