Re: Greenville Baptist Retirement
Community

Dear Mr. Hill:

The WCRSA Commission at its meeting on August 7, 1978 agreed to participate with the Greenville Baptist Retirement Community in the construction of a sewer line to serve that facility and other properties in the area as appropriate. This line is a portion of the Segment D line of the Brushy Creek Subarea Plan. Please prepare a draft agreement for this joint participation.

As you may note in one of the attached letters, the right-of-way is to be provided without cost to the WCRSA by the Greenville Baptist Retirement Community. The engineering and construction will be shared on a 75% - 25% basis. The estimated cost of this project is \$100,000 and it should be completed within eight months after an agreement is reached.

Financing of this project on behalf of the Greenville Baptist Retirement Community is contingent upon their available funding for the community center complex and has a bearing on when the sewer line may be constructed.

If you wish to discuss this or have any questions, please let me know.

Yours very truly,

WESTERN CAROLINA REGIONAL SEWER AUTHORITY

Charles R. Douglass
