

Milton, North Carolina, to the Company's 132 KV Station near Yanceyville, North Carolina, a distance of 10.36 miles.

(175) The Shaw Field 110 KV single-circuit tap line extending from the Company's Saluda-Sumter 110 KV line near Sumter, South Carolina, to the Company's Shaw Field 110 KV Station at Shaw Field, South Carolina, a distance of 5.70 miles.

(176) The Fairmont 110 KV single-circuit transmission tap line extending from the Company's Marion-Lumberton 110 KV Line near Fairmont, North Carolina, to the Company's Fairmont 110 KV Station near Fairmont, North Carolina, a distance of .77 miles.

(177) The Dillon 110 KV single-circuit transmission line extending from the Company's Marion-Lumberton 110 KV Line near Dillon, South Carolina, to the Company's Dillon 110 KV Station near Dillon, South Carolina, a distance of 2.26 miles.

(178) The New Bern 110 KV single-circuit transmission line extending from the United States Government's Camp Lejeune-Cherry Point 110 KV line near Cherry Point, North Carolina, to the Company's New Bern 110 KV Station near New Bern, North Carolina, a distance of 12.79 miles.

(179) The Wilmington-Whiteville 110 KV single-circuit transmission line extending from the Company's Louis V. Sutton Steam Electric Generating Station near Wilmington, North Carolina, to the Company's Whiteville 110 KV Station near Whiteville, North Carolina, a distance of 44.35 miles.

(180) The Sutton-Kilburn (Jacksonville) 110 KV single-circuit transmission line extending from the Company's Louis V. Sutton Steam Electric Generating Station near Wilmington, North Carolina, to the Company's Eagle Island-Jacksonville 110 KV Line near Kilburn, North Carolina, a distance of 4.78 miles.

(181) The Sutton-Kilburn (Wallace) 110 KV single-circuit transmission line extending from the Company's Louis V. Sutton Steam Electric Generating Station near Wilmington, North Carolina, to the Company's Wallace-East Wilmington 110 KV Line near Wilmington, North Carolina, a distance of 7.76 miles.

(182) The Whiteville-Marion 110 KV single-circuit transmission line extending from the Company's Whiteville 110 KV Station near Whiteville, North Carolina, to the Company's Marion 110 KV Station near Marion, South Carolina, a distance of 40.88 miles.

(183) The East Wilmington 110 KV single-circuit transmission line extending from the Company's Louis V. Sutton Steam Electric Generating Station near Wilmington, North Carolina, to the Company's East Wilmington 110 KV Station near Wilmington, North Carolina, a distance of 6.75 miles.

(184) The Candler 110 KV single-circuit transmission tap extending from the Company's Canton-West Asheville 110 KV Line to the Company's Candler 110 KV Station near Candler, North Carolina, a distance of .01 miles.

(185) The Sutton-Eagle Island 110 KV single-circuit transmission line extending from the Company's Louis V. Sutton Steam Electric Generating Station near Wilmington, North Carolina, to the Company's Jacksonville-Eagle Island 110 KV Line near Wilmington, North Carolina, a distance of 1.59 miles.

(186) The Bethune 110 KV single-circuit transmission line extending from the Company's Hartsville-Wateree 110 KV Line near Bethune, South Carolina, to the Company's Bethune 110 KV Station, a distance of 4.45 miles.

(187) The Blewett-Chesterfield 110 KV single-circuit transmission line extending from the Company's Blewett Hydroelectric Generating Station to the Company's Chesterfield 110 KV Station near Chesterfield, South Carolina, a distance of 21.5 miles.

(188) The Mount Olive 110 KV single-circuit transmission line extending from the Company's Goldsboro-Wallace 110 KV Line near Mount Olive, North Carolina, to the Company's Mount Olive 110 KV Station, a distance of .9 miles.

(189) The Red Springs 110 KV single-circuit transmission line extending from the Company's Lumberton-Raeford 110 KV Line near Red Springs, North Carolina, to the Company's Red Springs 110 KV Station, a distance of 5.4 miles.
