

wires, switch racks, insulators and other appliances and equipment and all other property, real personal or mixed, forming a part thereof or appurtenant thereto, together with all the rights of way, easements, permits, privileges, licenses, consents and rights for or relating to the construction, maintenance, of operation thereof, through, over, under or upon any public streets or highways or other lands, public or private, including, but not limited to, the following described transmission lines:

(236) The Cape Fear-Siler City 110 KV single-circuit transmission line extending from the Company's Cape Fear Steam Electric Generating Plant near Moncure, North Carolina to the junction with the Company's former Sanford-Siler City 110 KV line near Siler City, North Carolina, a distance of 27.81 miles.

(237) The Chesterfield-Cheraw 110 KV single-circuit transmission line extending from the Company's Chesterfield 110 KV Substation, near Chesterfield, South Carolina, to the Company's Cheraw 110 KV Substation, near Cheraw, South Carolina, a distance of 11.78 miles.

(238) The duPont-Florence 110 KV single-circuit transmission line extending from the Company's duPont 110 KV Substation, near Florence, South Carolina, to the Company's former Florence-Mariog 110 KV line, near Florence, South Carolina, a distance of 1.33 miles.

(239) The duPont-Marion 110 KV single-circuit transmission line extending from the Company's duPont 110 KV Substation, near Florence, South Carolina, to the Company's former Marion 110 KV line, near Florence, South Carolina, a distance of 1.33 miles.

(240) The Goldsboro-New Bern 110 KV single-circuit transmission line extending from the Company's Goldsboro Steam Electric Generating Plant, near Goldsboro, North Carolina, to the Company's New Bern 110 KV Substation, near New Bern, North Carolina, a distance of 71.63 miles.

(241) The two duPont (Kinston) 110 KV single-circuit transmission lines extending from the Company's duPont 110 KV Substation, near Granger, North Carolina, to the Company's duPont Junction with the Company's Goldsboro-New Bern 110 KV line, near Granger, North Carolina, a distance of 2.88 miles and total length of 5.77 miles.

(242) The Manning 110 KV single-circuit transmission line extending from the Company's Kingstree Junction-Sumter 110 KV line to the Com-

pany's Manning 110 KV Substation, near Manning, South Carolina, a distance of 2.05 miles.

(243) The Rocky Mount City 110 KV single-circuit transmission line extending from the Company's Rocky Mount 110 KV Substation, near Rocky Mount, North Carolina, to the Company's Rocky Mount City 110 KV Substation, at Rocky Mount, North Carolina, a distance of 1.01 miles.

(244) The Goldsboro-Rocky Mount East 110 KV single-circuit transmission line, extending from the Company's Goldsboro Steam Electric Generating Plant near Goldsboro, North Carolina, to the junction of the Company's Rocky Mount-Wilson 110 KV line and the Company's former Rocky Mount-Farmville line, near Elm City, North Carolina, a distance of 35.66 miles, including 6.78 miles on existing towers of the Company's Rocky Mount-Wilson line.

(245) The Skyland 66 KV single-circuit transmission line extending from the Company's West Asheville-Carston 66 KV line to the Company's Skyland 66 KV Substation, near Skyland, North Carolina, a distance of 2.00 miles.

(246) The Champion Fibre 66 KV single-circuit transmission line extending from the Company's Canton-Hazelwood 66 KV line near Waynesville, North Carolina, to the Company's Champion Fibre 66 KV Substation, near Waynesville, North Carolina, a distance of .3 miles—under construction.

(247) The Baxter Laboratory 33 KV double-circuit transmission line extending from the Company's Kingstree-Cades 33 KV line near Kingstree, South Carolina, to the Company's Baxter Laboratories 33 KV Substation, near Kingstree, South Carolina, a distance of 2.4 miles.

THIRD

The Additional Electric Substations and Substation Sites of the Company (including but not limited to the substations described in the Mortgage and the First, Second, Third, Fourth, Fifth and Sixth Supplemental Indentures thereto, which are now subject to the plan of the Mortgage, as supplemented and in which the capacity has been increased or in which other changes have been made), including all buildings, structures, towers, poles, equipment, appliances and devices for transforming, converting and distributing electric energy, and the land of the Company on which the same are situated, and all
